

Inspired by nature - made to work.

the ergonomic workplace mat

Version 07/2023

The technical advantages of the ERGOLASTEC® rubber mat

Our customers choose the ERGOLASTEC® industrial mat according to the criteria that are most important to them. With our high-quality mats, we have developed a product that meets all demands placed on ergonomic workplaces:

- Functional and user-friendly surface and underside designs
- High durability and robustness through high quality KRAIBURG mixtures
- Absolute reliability: oil, acid, and base resistance
- Combinable mat format: flexible connection solutions for individual requirements
- Precise and closely interlocked puzzle system for sustainable, secure fixation
- Very good slip resistance: Average mat weight of approx. 19 kg
- Guaranteed solid foothold and non-skid property (outer edges bevelled 20°)
- Excellent dimensional stability in cold, hot, and wet conditions (temperature resistance -25°C to +95°C)
- Excellent tear propagation properties
- Reduced noise emission

Economic industrial mats

With ERGOLASTEC®, we have developed premium-quality ergonomic industrial mats that meet the highest standards. Extensive practical tests demonstrate **high stability** and at the same time **high durability, low abrasion properties**, and **maximum flexibility** due to the dimensionally stable puzzle system that can be adjusted at any time.

Solutions for any challenge

Whether in use at **dry, wet, oily, or particularly high-stress workplaces** – the ERGOLASTEC® rubber mat is up to any challenge. In addition to many years of mixing expertise, the **customer-oriented and tailored development process** plays a decisive role.

Durability through quality

Without exception, our ERGOLASTEC® industrial mats stand for the highest standards in quality and safety. As the most important raw material, the rubber compound plays an essential role in achieving the **longevity and dimensional stability** of ERGOLASTEC mats. With our experience spanning more than 70 years of rubber competence, our research and development team makes no compromises in the selection of raw materials.

Tailor-made workplaces - On-side consultation

Benefit from our flexible composite system for application-oriented individual solutions: we use exact dimensions to design your workstation in accordance with the precise ERGOLASTEC® standards. **Being close to our customers is very important for us.**

Made in Austria

All **mixing and manufacturing processes** for the ERGOLASTEC® industrial mats and their production take place exclusively at our **headquarters in Geretsberg**, Upper Austria.

highest quality for your performance

Benefits

Campaign for Healthier Backs (AGR)

The work of the Campaign for Healthier Backs (AGR) is dedicated to a crucial goal: working together to combat the most widespread disease in our society. The purpose of the AGR association is to promote research on preventing back pain and to disseminate the findings from these research endeavours, with the goal of making a contribution to fighting the common affliction of back pain (§2 of the AGR e. V. statute).

The ERGOLASTEC® workplace mat has been certified with the AGR seal of quality by **an examination committee consisting of independent medical specialists and physiologists.**

AGR-certified workout ground

The secret to our back-protecting rubber mat lies in the interplay of **special geometric sides (surface and back) that stimulate continuous compensation movements.** This means that the anti-fatigue mats are developed in such a way that the body naturally oscillates and the leg and calf muscles thereby permanently remain slightly in motion. **This reduces the one-sided pressure on the inter-vertebral discs and ensures a balanced load on the back musculature.** The spine is stabilised.

health as a
production factor

Benefits

ERGOLASTEC® workout ground for powerful employees

- Activation of the muscle pump
- Dynamization of the leg muscles
- Reduction of fatigue symptoms
- Shock damping effect when standing and walking

The AGR quality cachet (Aktion Gesunder Rücken = Campaign for Healthier Backs):
 Certified and recommended by Association Forum Healthy Back – Better Living and
 Federal Association of German Back Schools. More information:
 AGR e.V., Pf. 103, D - 27443 Selsingen, Phone + 49 4284/92 69 990, www.agr-ev.de

reduction of back pain

24 %

of sick days were the result of musculo-skeletal diseases in 2021

18,2 days

of back pain. Average absence from work of 4.4 days per year.

Cost savings – reduction of sick leave

Reduced costs through the use of ERGOLASTEC® industrial mats. According to the 2019 BKK Health Report, 24,3 % of sick days can be traced back to musculo-skeletal disorders. This amounts to **an average of 14,3 days lost per employee due to back pain.** By using ERGOLASTEC® rubber mats, you can actively promote the well-being of your employees and reduce costs.

ERGONOMIC WORKPLACE MATS

VARIO

Rotation friendly and
easy cleaning:
VARIO ensures the perfect
performance at the workplace.

**BRAND
NEW**

Achieve corporate goals smartly

The high quality, rotation friendly and easy to clean ergonomic rubber mat for high-footfall areas and stand-up workstations.

- o Due to the **elastic properties** of the rubber compound and the special geometry on the back, the mat has a particularly shock-absorbing and activating effect.
- o The surface of the rubber is **rotation friendly** and at the same time impresses with its slip and lying resistance.
- o Very **easy to clean!** Wipeable surface like conventional industrial floors.

Surface	Size	Electric conductivity	Material	Hardness	Weight	Colour
VARIO Dry	1350 x 1000 x 16 mm*	Antistatic	NBR**	55 Shore A	20 ± 1 kg	
VARIO+	1350 x 1000 x 16 mm*	≤ 10 ⁷ Ohm**	NBR**	55 Shore A	20 ± 1 kg	

Surface and backside geometries

*Tolerances according to DIN ISO 3302 - 1 M4

Possible colour deviations of mats possible, this yellowing is temporary in nature. Depending on the intensity and duration of light exposure, this yellowing will fade after a relatively short time. It is not unusual for new mats to take on their final colour only in use.

INDUSTRIES

Automotive

Mobility is the key driver: those who build cars need no standstill at the workplace. That's why VARIO ensures smooth motion sequences and, thanks to fire protection class BFL-S1, a safe environment - so that production doesn't come to a standstill.

ESD workplace

Meticulous work needs a solid foundation. As an easy-care mat, VARIO+ for ESD workplaces forms the basis of the antistatic equipment and ensures a safe and clean floor underfoot - stable support that can be used variably.

Logistics

The quintessence of logistics? Smooth processes. VARIO stands for trouble-free and continuous movement from A to B: the swivelling surface enables flexible work steps, the springy structure brings endurance by relieving the legs and intervertebral discs.

Office areas

Ergonomics in the office goes beyond a suitable office chair. VARIO relieves the strain at the standing workstation, activates the muscles and stabilises the spine. This makes it easy to flip the switch in customer contact: tired legs - off. Alert smile - on.

ERGONOMIC PUR

Mats with the forest floor effect

ergolastec[®] BASIC

The multi-functional rubber mat with the AGR seal of approval.

- o The comfortable rubber mat is suitable for **workplaces at workbenches, production lines, assembly tables, counters, and cash desks.**
- o The durable mat – suitable for **multi-shift operation.**
- o The strength and the high-quality material of the industrial mat **protect against unhealthy cold radiating from the ground.**
- o **Easy to clean** and versatile in use, also **on floors with underfloor heating.**

Surface	Size	Electric conductivity	Material	Hardness	Weight	Colour
BASIC Dry	1350 x 1000 x 16 mm*	Antistatic	SBR**	55 Shore A	19 ± 1 kg	
BASIC Wet	1350 x 1000 x 20 mm*	Antistatic	SBR**	55 Shore A	19,5 ± 1 kg	
BASIC Diamond	1350 x 1000 x 20 mm*	Antistatic	SBR**	55 Shore A	19,5 ± 1 kg	

Surface and backside geometries

* Tolerances according to DIN ISO 3302 - 1 M4; ** It may cause slight discoloration on light floors

The electrically conductive industrial mat with the AGR seal of approval.

- o The electrically conductive rubber mat is suitable for the special requirements of **electronic and microelectronic workstations**.
- o The rubber mat is electrically conductive in accordance with **EN 61340-4-1**.
- o Safety at the highest level: the rubber mat has a **surface resistance of $\leq 10^7$ ohms**.
- o All versions are marked with the **ESD safety label**.
- o Can also be used in **explosion-protected areas**. Inspection and approval by a specialist is absolutely necessary!

Surface	Size	Vertical resistance	Material	Hardness	Weight	Colour
ESD Dry	1350 x 1000 x 16 mm*	$\leq 10^7$ Ohm**	SBR***	55 Shore A	19 ± 1 kg	
ESD Wet	1350 x 1000 x 20 mm*	$\leq 10^7$ Ohm**	SBR***	55 Shore A	19,5 ± 1 kg	

Surface and backside geometries

ergolastec[®] OIL

The oil-resistant ergonomic mat with the AGR seal of approval.

- o Suitable for **oil-resistant workstations**, such as workbenches, turning and milling machines or chemical laboratories.
- o The rubber mat is resistant to **various oils**, greases, commercially available cooling lubricants, fuels, and non-polar solvents.
- o Ideal for workplaces with a **high risk of slipping**.
- o Very good slip resistance: Average mat weight of approx. 19 kg

Surface	Size	Fire protecting class	Material	Hardness	Weight	Colour
OIL Dry	1350 x 1000 x 16 mm*	Bfl-s1**	NBR***	55 Shore A	19 ± 1 kg	
OIL Wet	1350 x 1000 x 20 mm*	Bfl-s1**	NBR***	55 Shore A	19,5 ± 1 kg	
OIL Diamond	1350 x 1000 x 20 mm*	Bfl-s1**	NBR***	55 Shore A	19,5 ± 1 kg	
OIL Diamond Quarz	1350 x 1000 x 20 mm*	Bfl-s1**	NBR***	55 Shore A	19,5 ± 1 kg	
OIL Superdrain	1350 x 1000 x 18 mm*	Bfl-s1**	NBR***	55 Shore A	19,5 ± 1 kg	
OIL Dry ESD	1350 x 1000 x 18 mm*	Bfl-s1**	NBR***	55 Shore A	19,5 ± 1 kg	

* Tolerances according to DIN ISO 3302 - 1 M4; ** In accordance with EN 13501 resistant to short-term flying sparks and welding beads *** It may cause slight discoloration on light soils

Surface and backside geometries

DRY = dry working conditions; WET = humid working conditions; DIAMOND = Slippery working conditions; QUARTZ = Very slippery working conditions; SUPERDRAIN = Wet working conditions

ergolastec[®] FIRE

The flame-retardant rubber mat with the AGR seal of approval.

- o The ERGOLASTEC Fire is flame-retardant in accordance with EN13501-1/floor covering test, and therefore also suitable for use in public buildings.
- o The tested rubber mat can be used at grinding and welding workstations.**
- o The flame-retardant rubber mat has the fire protection class Bfl-S1.**
- o Heat resistance to short-term sparks and welding beads.

Surface	Size	Fire protection class	Material	Hardness	Weight	Colour
FIRE Dry	1350 x 1000 x 16 mm*	Bfl-s1**	SBR***	55 Shore A	19 ± 1 kg	
FIRE Wet	1350 x 1000 x 20 mm*	Bfl-s1**	SBR***	55 Shore A	19,5 ± 1 kg	
FIRE Diamond	1350 x 1000 x 20 mm*	Bfl-s1**	SBR***	55 Shore A	19,5 ± 1 kg	

Surface and backside geometries

* Tolerances according to DIN ISO 3302 - 1 M4; ** According to EN 13501 resistant to short-term flying sparks and welding beads
*** Slight discolouration may occur on light floors

ergolastec[®] CLEAN

The hygienic industrial mat with the AGR seal of approval.

- o The hygienic rubber mat is manufactured with an **antimicrobial and homogeneously distributed additive** to **prevent the formation of bacteria and fungi**.
- o The hygienic mat is suitable for application areas such as the **food industry, canteen kitchens, and restaurants**.
- o The high-quality materials ensure a relatively odourless mat, which can therefore also be **used in closed rooms**.
- o The hygienic rubber mat is **easy to clean** with commercially available cleaning agents.
- o The hexagonal hole geometry enables a large number of holes to be drilled into the smallest possible space – **this results in even faster drainage of liquids and oils**.

Surface	Size	Biocidal properties	Material	Hardness	Weight	Colour
CLEAN Dry	1350 x 1000 x 16 mm*	Fungus and bacteria-inhibiting	NBR**	55 Shore A	19 ± 1 kg	
CLEAN Diamond	1350 x 1000 x 20 mm*		NBR**	55 Shore A	19,5 ± 1 kg	
CLEAN Superdrain	1350 x 1000 x 18 mm*		NBR**	55 Shore A	15 ± 1 kg	

Surface and backside geometries

* Tolerances according to DIN ISO 3302 - 1 M4; ** It may cause slight discoloration on light floors

PUTZMUNTER

becker
putztextilien

becker

ergolastec[®] INLAY

The customer-specific rubber mat with the AGR seal of approval.

- o The ERGOLASTEC inlay is particularly suitable for **reception or entrance areas** – outdoor or indoor.
- o The **hard-wearing rubber mat** with or without insert.
- o The high-quality carpet insert can be **custom-made by KRAIBURG** – for a lasting impression.
- o The carpet insert is **non-slip and abrasion-resistant**.
- o The robust and durable carpet insert is **light and water-resistant** and has a **good dirt-trapping effect**.
- o **Easy cleaning of the rubber mat and flexible replacement of the washable carpet insert.**

Surface	Size	Electric conductivity	Material	Hardness	Weight	Colour
INLAY	1350 x 1000 x 16 mm*	Antistatic	SBR**	55 Shore A	10 - 20 kg depending on Inserter

Tailor-made workplaces

Benefit from our **flexible interlocking system for application-oriented individual solutions**: based on the exact dimensions, we design your workplace according to the precise KRAIBURG standards. Our ERGOLASTEC® team offers you the **necessary advice** for your tailor-made rubber mats as well as an **installation service**. Just get in touch. **Your challenge is our motivation!**

The ideal solution for more flexibility in the workplace

- Requirement is a fixed surface, such as concrete / screed, resin floor, asphalt, tile, etc.
- The surface must be even, clean and smooth
- The mats must be stored between +5°C and max. +30°C before they are laid.

Useful tips

1. Lay the mats on the ground
2. Spray the interlocking edges with soapy water
3. Fit the puzzles together with a rubber hammer
4. The mats can simply be cut to size with a cutter in order to fit in place and allow for any indents, recesses or workbench legs, etc.

Tested tensile force of up to 12 kg
(KRAIBURG Laboratory, Sept. 2018)

Individual advice

The KRAIBURG MATTING SYSTEMS team offers you a **comprehensive consulting and customer service** for the ERGOLASTEC® rubber mats. Whether on-site consultation, by email or on the phone, our team is always at your disposal. Customer proximity is particularly important to us, so we offer the following services especially on site:

- Measurement and laying service
- After-Sales-Service

Just contact us, we look forward to your inquiry!

ERGOLASTEC accessories

For optimal use and cleaning of the mats

If required, you can order the ERGOLASTEC® accessories from KRAIBURG. From the marking tape to the ESD set, we offer you the necessary material for the optimal application and cleaning of the ergonomic and functional workplace mats.

Marking tape yellow

length: 25 m
width: 40 mm
thickness: 1,1 mm

ArtNr.: 12125400

Vary Bond 14-06 elastomer - glue based on Cyanacrylat

Content: 20 g
rtNr.: 12236600

Warning: Cyanoacrylate. Danger. Bonds within seconds skin and eyelids together. Keep away from children

ERGOLASTEC cable duct 1350mm

For three cables up to 15 mm in diameter
Dimension: 1350 x 22mm

ArtNr.: 13318300

ESD-Set

Set consisting of:
grounding cable
(2000 mm length),
push button, captive
nut, screw

ArtNr.: 13307100

ERGOLASTEC cable duct 1000 mm

For three cables up to 15 mm in diameter
Dimension: 1000 x 22 mm

ArtNr.: 13318100

Approach slope yellow straight

Material: NBR rubber

Dimension: 834 x 61,5 mm

ArtNr.: 13309600

D-TACK duct tape

Available in the
following widths:
150 mm x 25 m

ArtNr.: 12613200

Approach slope yellow with corner

Material: NBR rubber

Dimension: 834 x 61,5 mm

ArtNr.: 13309500

If you have any questions - the ERGOLASTEC® team or your local dealer are available to advise you.

KRAIBURG expertise

With the ERGOLASTEC® brand, KRAIBURG combines many years of expertise and the best ingredients for a special kind of ergonomic industrial mat:

- o More than 70 years of expertise in manufacturing and processing high-quality and special rubber materials.
- o Experts in workplace ergonomics
- o Recognised throughout Europe as a specialist in optimising the floor conditions of standing and walking workplaces
- o Recognised throughout Europe as a specialist and partner in the tyre industry.
- o Major supplier of tyre and retreading materials as well as industry-specific solutions.
- o High level of expertise in developing optimal rubber compounds, highly efficient tyre treads, and mat surface geometries.
- o State-of-the-art production facilities with high-tech machinery.
- o Europe-wide, customer-oriented sales and comprehensive consulting and services.

By bundling all of KRAIBURG's unique fields of expertise, we are able to **manufacture high-quality rubber mats** that remain **unparalleled in terms of quality, safety, economic efficiency, environmental sustainability, and comfort** to date. This has not only been confirmed by the Campaign for Healthier Backs, who have awarded us the **AGR seal of approval**, but also by many enthusiastic customers.

Your demands – our standard

On 1 June 2007, the new EU Chemicals Regulation No. 1907/2006 on the Registration, Evaluation, Authorisation, and Restriction of Chemicals (REACH) came into effect.

KRAIBURG understands its REACH obligations and is involved through the Austrian Chamber of Commerce (WKO) and the German Rubber Industry Association (wdk).

For „substances of very high concern“ (SVHC substances), REACH stipulates an information obligation if such an SVHC substance is present in concentrations higher than 0.1 percent by weight in the preparation or in the product.

The products made by Kraiburg Austria GmbH & Co. KG do not contain any of these substances.

KRAIBURG Material: Dimensional stability even in extreme conditions

Environmental influences as well as different materials can demand a lot from the ERGOLASTEC® workplace mats and the rubber compound. With **carefully coordinated materials, KRAIBURG ensures a safe and stable mat quality - even under extreme conditions.**

In addition to the legally required classification reports, the ERGOLASTEC® workplace mats are additionally tested in the KRAIBURG test laboratory as well as in their own production under various influences:

- o Oil resistance
- o Resistance to chips
- o Link stability of the puzzle system
- o Temperature resistance (-35°C bis +95°C)
- o Tread and lying strength
- o Slip resistance

The ERGOLASTEC® workplace mats retain their shape even in extreme situations and therefore guarantee maximum safety and quality

Fire Behavior

KRAIBURG was founded in 1947 and is one of the technology leaders in the international rubber industry today, with 12 production sites in 8 countries, around 2,300 employees worldwide, and revenue amounting to €540 million in 2017.

The KRAIBURG Group's highly specialised product range is characterised by future-oriented developments for the rubber processing industry.

It comprises rubber and thermoplastic elastomer compounds, tyre retreading materials, rubber rollers and roller covers, running and lying mats for animal husbandry, workplace and fall protection slabs, STRAIL level crossing systems, building protection and impact sound insulation, and sports floors and sports floor coverings. The special customer proximity of the KRAIBURG Group forms the basis of its great solution capacity and optimum practical development suitability!
